

ABOUT STRIVE

STRIVE is a leading national solution for people who face obstacles to employment. Founded in 1984 in Harlem, NY, STRIVE's programs have changed the lives of 80,000 graduates from our flagship site in New York City and the [STRIVE network](#) in 12 cities across the country. Launched in 2020, STRIVE Atlanta is the first expansion site of the STRIVE organization.

MISSION

To help people acquire the life-changing skills and attitudes needed to overcome challenging circumstances, find sustained employment, and become valuable contributors to their families, employers, and communities.

PROGRAM

The **STRIVE Atlanta Career Path** uses a five-pillar model that begins with **Career Coaching**, giving each student intensive, personal support to identify and remove any barriers that stand in the way of their workplace success. Next is **STRIVE Success Through Attitude and Readiness "START" training**, our 15-day virtual job readiness training focused on mindset, accountability, and interpersonal skills. Participants continue with **Occupational Skills Training**, focused on a career path in high-demand industries, earning one or more industry-recognized credentials. After graduation, **Job Placement** builds on our deep partnerships with local employers where graduates not only land a job but build a career. Last, in **Lifetime Supportive Services** we provide alumni with professional development workshops and ongoing support after employment and through any needs that may arise.

2021 TRAINING PATHS

- Logistics Supply Chain | Inventory Control | Office Administration | Environmental Maintenance

INDUSTRY RECOGNIZED CREDENTIALS

- MSSC Certified Logistics Associate | Inventory Control | OSHA | Forklift Operator

ELIGIBILITY & REQUIREMENTS
